

Dear Parents:

All students attending Hannah-Pamplico Elementary/Middle School will be eligible to participate in the National Lunch and Breakfast Programs at no cost for the 2019-2020 School Year. Parents will not complete a lunch application for these students. **Parents of students attending Hannah-Pamplico High School will be required to complete an application.** An online application for high school students may be submitted at www.lunchapplication.com. Applications will be available at the school for completion during registration.

Parents of students at Hannah-Pamplico Elementary/Middle School are asked to encourage their children to participate in the no cost lunch and breakfast programs. This alternative is referred to as the Community Eligible Program (CEP). All meals served follow the United States Department of Agriculture (USDA) guidelines for healthy school meals.
