

Reset the Google Chrome Web Browser to Default Settings

Reset Google Chrome

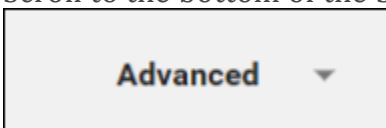

1. Click the menu icon next to the address bar.

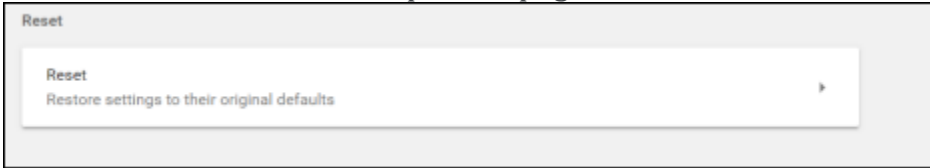

2. Select Settings from the drop-down menu.

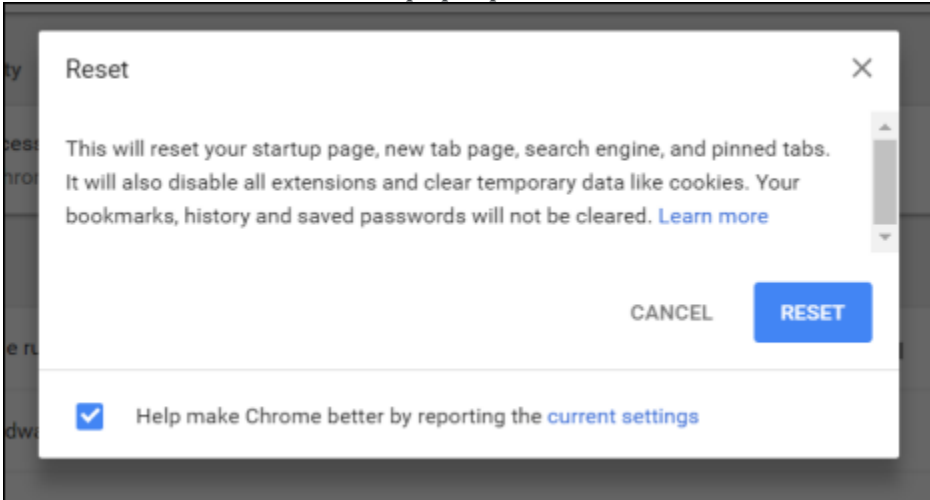

3. Scroll to the bottom of the Settings page and click the Advanced link.

4. Scroll to the bottom of the expanded page and click the Reset button.

5. Click the Reset button in the pop-up window.

**** Note, this will reset all custom settings back to default.
